PROCESS CONTROL AND AUTOMATION SYSTEMS

- Mill set-up and pass scheduling
- Automatic Gauge Control – AGC
- Automatic Flatness Control – AFC
- Optical Gauge Control – OGC
- Profilis, Continum
- Flatness Control mode – PCFC
- Coolant control
- Quality control and reporting

HOT ROLLING

- Single-stand reversing mills
- Two-stand reversing mills
- Semi-continuous rolling mills
- In-line casting and rolling mills
- Vertical edgers

COLD ROLLING

- Continuous cold rolling mills
- Tandem mills
- Single-stand mills

FOIL ROLLING

- Universal foil mills
- Foil roughing mills
- Foil finishing mills

COOLANT AND LUBRICATION SYSTEMS

INGOT SCALPERS AND BAND SAWS

PROCESSING LINES

SIDE TRIMMERS AND CROP SHEARS

COILERS FOR HOT AND COLD ROLLING

HANDLING SYSTEMS

MORGOIL BEARINGS

Plant technology for aluminium rolling
